search guide image -->

The image shows a mobile application interface for a 'Medictionary'. The app has a teal header bar with a hamburger menu icon on the left, the title 'Medictionary' in the center, and a magnifying glass icon on the right. Below the header, there are two icons: a group of people and a speech bubble. The main content area is white and contains two search sections. The first section is titled 'Search by Name' and features a search input field with a magnifying glass icon on the left and a blue 'Search' button on the right. The second section is titled 'Search by Characteristic' and includes a square placeholder with a large 'X' for a search guide image. To the right of this placeholder are three input fields: 'Shape' with a dropdown arrow, 'Color' with a dropdown arrow, and 'Enter imprint'. A blue 'Search' button is located at the bottom of this section. The status bar at the top of the phone screen shows a mail icon, a checkmark, signal strength, battery level, and the time 10:56.

<-- editing alarm

<-- setting alarm

*in our first plan, there were a pill box and
alarm setting page*

*but in this mockup,
I combine the pillbox and setting*

*it is not firmed model, so if you think orig
ina idea is better than this, we can discu
s about this!!*
